prompt, professional and accommodating service

...J.B. Tweed Heads NSW

**After purchasing a new home in 1990 we decided to enjoy clean and chemical free water in our kitchen.

Our choice was an Under-sink purifier and Pure Water Systems had exactly what we wanted and installed it for us without delay.

We have now enjoyed many years of use from our purifier for all food preparation, cooking, hot and cold drinks and we recommend the filtered water, as it tastes great.

Pure Water Systems phone us every year to arrange a suitable time to change the cartridges and their serviceman call to attend to this matter on time and in a friendly manner. Each serviceman has been friendly, helpful and cheerful and it's a pleasure to have them call.

I would have no hesitation in thoroughly recommending PURE WATER SYSTEMS, their products, their service and the high quality of water that this system produces.

...Yours faithfully,
J.H. Coombabah QLD
