

PURE
WATER SYSTEMS

TWIN UNDER SINK WATER FILTRATION SYSTEM

The Pure Water Systems Twin Under Sink system is constructed using only the highest quality parts and fittings, sourced from the worlds most reputable manufacturers, offering superior filtration of chemicals, metals, bacteria* and cysts and is an economical, practical water filtration solution.

The Twin Under Sink system can be used for both town and tank water supplies and can be plumbed underneath your sink with a faucet solely for filtered water or run inline to a chilled application.

Pure Water Systems offers a range of faucet upgrade options to accompany your water filtration system to ensure that it is a stylish addition to your kitchen.

Pure Water Systems also offers a 3 year parts and labour warranty coupled with our Pure Quality Guarantee*, ensuring that you are receiving the best quality water available and value for money.

*Bacteria reduction only available for tank water (the Doulton Ultracarb cartridge)
