SHOWER FILTER DELUXE

Pure Water Systems Shower and Bath Filter products utilise the Sprite filter range, which are rated as some of the most effective and practical Shower and Bath Filters currently manufactured.

Shower and Bath Filters help to process chemical disinfectants that may be present in the water. Because of the introduction of hot water, Shower and Bath Filters process water in a different way to traditional carbon filtration products. By using a specifically formulated media called KDF, Shower and Bath Filters are able to cope with and process the large amount of water that passes through the filter cartridge in a short amount of time, helping to convert disinfection products such as Chlorine into harmless Chloride.

The manufacturer recommends that the Shower Filter Deluxe cartridge be replaced every 12 months or sooner if required. For optimum performance, the Cartridge should be rotated periodically.

Pure Water Systems offers a 3 year parts and labour warranty coupled with our Pure Quality Guarantee*, ensuring that you are receiving the best quality water available and value for money.

* Available in Chrome and White.

KEY BENEFITS

- Environmentally friendly and economical alternative for healthier water when showering.
- Easy to use with no complicated features.
- 100% Recyclable Cartridge.
- May assist in the relief of skin irritations and breathing related ailments such as asthma.
- Softer skin & hair.
- Highest quality parts and fittings for greater peace of mind.
