## BENCH TOP WATER FILTRATION SYSTEM

### STAINLESS STEEL

The Pure Water Systems Stainless Steel Bench Top Water Filter is a totally portable system that can be installed directly onto your existing tap in just a few easy steps.

Constructed using only the highest quality 304 stainless steel, the Stainless Steel Bench Top is a stylish and economical water filtration solution.

The Stainless Steel Bench Top Water Filter can be used for both town and tank water supplies, and is ideal for use in the home, office or even whilst traveling, which means that you're never without a healthy source of fresh, filtered water.

### THE HEART OF THE FILTER

Our Stainless Steel Bench Top Water Filter utilises carbon block filtration matched to your needs, offering superior reduction of tastes, odours, chemicals, metals and bacteria, leaving you with water that not only tastes great, but is good for you.

Pure Water Systems offers a 3 year parts and labour warranty coupled with our Pure Quality Guarantee\*, ensuring that you are receiving the best quality water available and value for money.
